Subject : 5.01 AB 21021 - Dawson & City Property Exchange - 326 SW 12th Street - Mr. Rickard
Meeting : Jan 26, 2021 - Electronic City Council Meeting
Category : 5. Action Items.
Access : Public
Type : Action
Preferred Date : Jan 26, 2021
Fiscal Impact : No
Recommended Action : Motion to approve Resolution No. 21-005 regarding a Boundary Line Adjustment between the City of College Place and Brent and Sunday Dawson, right-of-way dedication by Brent and Sunday Dawson to the City of College Place, and right-of-way dedication by Dale and Susan Huett to the City of College Place.

Public Content

Historical Perspective:

In 1992 Walla Walla County Deeded to the City a discontinued portion of the Burlington Norther Railroad Co.'s Walla Walla to Milton-Freewater branch line right-of-way for road purposes.

Information for Consideration:

Survey work in the area has resulted in the discovery that 818 SQFT of the former railroad right-of-way owned by the city protrudes into property owned by Mr. Brent Dawson. The land is not needed for road purposes and would be too small for any other purpose. Mr. Dawson has requested that an adjustment be made that would be mutually beneficial to all.

The proposal is that the City would adjust the northern parcel boundary of the former railroad right-of-way south approximately 49.99', having an area of 818 square feet, more or less.

The Dawson's would dedicate to the City for right-of-way purposes 551 square feet, 0.01 acres, more or less.

The neighbors to the West of Dawson, the Huett's will dedicate to the City for right-of-way purposes 200.1 SQFT.

Mr. Dawson will end up with a lot that is not impacted by City property and the public gains a right-of-way that will provide the city with a 30 FT half street right-of-way which matches the right-of-way to the east of the Dawson property. This additional right-of-way will allow for future installation of street, curb, and sidewalks as development continues to the West.

Access :	Public
Type :	Action
Preferred Date :	Jan 26, 2021
Recommended Action :	Motion to authorize staff to complete the on-line letter of interest form for a Sherwood Trust Core Grant.

Public Content

Historical Perspective:

City Staff has applied for grants from the Recreation and Conservation Funding Board and ranked extremely competitively in the WWRP - Local Parks Category (ranked 7th out of 80) and the LWCF (ranked 14th out of 24). If both grants are funded the City will receive \$1,000,000.00 towards specific park improvements identified in each grant request, primarily a splash pad, inclusive playground, walking pathways, restrooms, picnic shelter and pond improvements.

Information for Consideration:

The Sherwood Trust Core Grant application deadline is March 8, 2021. The City has two pending grant application with the WA State Recreation and Conservation Office (RCO) with a total estimated project budget of \$2,789,519 million, this amount considers a local match of approximately \$1,789,519.00. The City has budgeted \$2 million for the project in 2021 (this includes \$1 million from RCO). The City is proposing a grant request from the Sherwood Trust in the amount of \$500,000.

The concept includes walking paths with exercise equipment, inclusive playground, splash pad, restrooms, pond dredging, fishing dock, park sign, picnic shelter, and lighting.

RE: Meadowbrook Boulevard Overlay and Sidewalk Project – Bids Results

Dear Paul:

This letter describes the bid results from January 12, 2021 for the Meadowbrook Boulevard Overlay and Sidewalk Project.

Bid Results from January 12, 2021

Bids for the project were received and opened at Anderson Perry & Associates, Inc., on January 12, 2021 at 2:00 p.m. The City received two bids from the following bidders:

1. Central Washington Asphalt, Inc.
2. Humbert Asphalt, Inc.

All bids were opened and read. After the bid opening, the bids were reviewed again, and the Bidder Responsibility Criteria pursuant to the Revised Code of Washington 39.04.010 was examined with respect to the lowest bidder (see attached).

After the bid opening, we entered the bid prices into a Microsoft Excel spreadsheet to check the price extensions and verify that the total bid amounts read matched the amounts written on each bid. No errors were found in either bid. A copy of the Bid Tabulation, which shows the bidders' prices and costs for each individual bid item, is attached.

The bid totals ranged from \$207,202.00 to \$229,730.00. The Engineer's Estimate was \$246,655.00. The apparent low bidder is Central Washington Asphalt, Inc. Their bid was \$36,453.00 lower than the Engineer's Estimate. The two bids were close with a difference of approximately \$20,000.

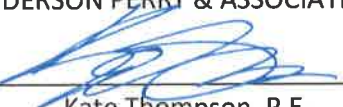

Summary

From our review of the bids, we recommend the City of College Place consider awarding the Meadowbrook Boulevard Overlay and Sidewalk Project to Central Washington Asphalt, Inc., contingent upon approval from the City's Attorney.

Please contact me if you have any questions.

WASTEWATER TREATMENT PLANT: GENERAL

DECEMBER ACTIVITIES:

- Treated approximately 27.9 million gallons of sewage (0.90 million gallons per day) removing over 99 % of Biochemical Oxygen Demand and Total Suspended Solids.
- The plant discharged the plant effluent flow to the creek.
- Submitted to the Washington State Department of Ecology (DOE)
 - November Monthly Discharge Monitoring Report

- Quarterly Discharge Monitoring Report
 - Effluent Temperature Study Report
 - A report for a December UV disinfection failure with no plant discharge
- The wastewater treatment plant met all permit limits in December. The UV disinfection failed one day due to broke UV sleeve and all the UV effluent flow was pumped back to the plant.
- Data for the Annual Irrigation and Crop Management Report sent to CES

WASTEWATER TREATMENT PLANT: MAINTENANCE

DECEMBER ACTIVITIES:

Issues Repaired

- Emergency generator fuel tank was filled
- A quartz sleeve in one of the three UV disinfection reactors cracked and faulted out the reactor. All eight quartz sleeves were replaced with either cleaned used sleeves or new replacements. UV reactor is available for service.
- Received UV parts to rebuild one UV reactor when needed.
- Phone line for Homestead lift station repaired by CenturyLink. Phone pedestal on Whitman had been hit by a vehicle. No phone service for 2-days.

Issues that need addressed

- SBR 1 mixer float needs replaced. The replacement float is on site and ready. Scheduling a crane for the installation. Safe installation requires favorable weather conditions.

WASTEWATER TREATMENT PLANT: OPERATIONS

DECEMBER ACTIVITIES:

- The plant discharged the effluent flow in December. Plant effluent discharged to the creek did not require cooling or aerating to meet the November through April NPDES permit conditions.
- Dewatering process solids and distributing on the drying pad for further processing
- The plant used an average 6,209 kilowatt hours per day of electricity to operate costing \$402 per day. The average usage since 2016 has been 6892 kilowatt hours per day.

- Completed slowly pumping the irrigation reservoir contents back into the plant to make room in the reservoir for emergencies such as equipment and electrical failures.

WASTEWATER TREATMENT PLANT: LABORATORY

DECEMBER ACTIVITIES:

- All daily, weekly, and monthly regulatory testing performed as required
- All quarterly sampling was completed. Two of the monitoring wells had been dry until December and needed to be sampled.
- Six manholes in the city sewer collection system were sampled for PCB's.

WASTEWATER TREATMENT PLANT: COLLECTIONS

DECEMBER ACTIVITIES:

- Cleaned 3,947 feet of sewer line in December
- Re-visited cleaning, 3,043 feet of sewer lines (Hot Spots)
- Camera inspection of 320 feet of collections piping
- Sewage lift stations checked and maintained weekly
- Lift station 3 and 5 wet wells where cleaned
- Alarm dialers status for the lift stations checked every work day
- The phone line to Homestead lift station was out of order 2 days due to the line being bad on West Whitman Drive and had to be repaired by the phone company.
- The city received a call for a possible sewer back-up on Highland Park Drive. No issues were found upon inspection. Sewer was cleaned the following day to be sure sewer line was clear.

WASTEWATER TREATMENT PLANT: EFFLUENT LAND APPLICATION SITE

DECEMBER ACTIVITIES:

- Land treatment of the effluent ended for the season on October 7th.
- No activities were performed at the site of harvested Hybrid Poplar trees (28-acres).
